

**Three year predoctoral position at IBMCP
CSIC-Universidad Politécnica de Valencia, SPAIN**

<http://www.ibmcp.csic.es/en>

Research group: Plant Virus Biotechnology

<http://personales.upv.es/jadaros/>

Group leader: José-Antonio Daròs

<http://www.ncbi.nlm.nih.gov/pubmed/?term=Daros+JA>

Project: A biotechnological system based on eggplant latent viroid to produce recombinant RNA

See: <http://www.ncbi.nlm.nih.gov/pubmed/29382906>

Details: We have a 3-year predoctoral position in our research group. The contract is associated to the Santiago Grisolia program from Generalitat Valenciana. This is an internationalization program and candidates require to have graduated in a foreign (outside Spain) university after 1 January 2014. In addition, they also require to have finished the master degree by the time of incorporation.

Starting: 1 July or 1 October 2018
